

# ALES HIGH PERFORMANCE WATERPROOFING

## Durable Waterproofing with Water-Based Innovation

A high-performance, liquid-applied waterproofing coating formulated with advanced acrylic emulsion. It offers long-lasting protection against water and weather, with flexible crack-bridging capability.

-  Water-based
-  Formaldehyde-Free
-  VOC-Free
-  APEO-Free
-  Lead-Free
-  Mercury-Free

# SEAL . PROTECT . LAST .

## WHY CHOOSE ALES HIGH PERFORMANCE WATERPROOFING?

- **Elastomeric Flexibility**  
Bridges hairline cracks caused by thermal movement or shrinkage.
- **Thixotropic Formula**  
Non-sagging for vertical applications, high-build coverage.
- **Durable Membrane**  
Long-lasting protection against water ingress.
- **Weather-Tough**  
UV, alkaline, and fungal resistant.
- **Strong Adhesion**
- **Works on old & new surfaces.**
- **Easy Application**  
Brush, roller, squeegee, or spray.

## WHERE IT WORKS BEST

- Roof Slabs & Podium Decks
- External Facades
- Vertical Masonry Walls with Hairline Cracks
- Gutters, Balconies & Terraces
- Metal Roofing & Cladding
- Internal Wet Areas (Bathrooms, Utility rooms)
